TEACHING COURSES

For Undergraduate Students (at CUF and Others from 2009):

Social Survey and Research Methods

Social Statistics

Statistical Software and Applications: SPSS & STATA

Sampling Surveys

Applied Linear Regression

Population Economics

Population Sociology

Introduction to Econometrics

Sexual and Reproductive Health of College Students

Health and Society

Medical Sociology

Social Stratification and Mobility

Gender Sociology

For Graduate Students (at CUFE and Others from 2009):

Categorical Data Regression

Hierarchical Models and Applications

Survival Analysis/Social Event History Analysis

Structural Equation Modeling and Applications

Data Processing and Regression Analysis

Advanced Social Quantitative Analysis Methods

Application of Regression Analysis in Social Science

Advanced Econometrics and Advanced Social Quantitative Analysis

Advanced Population Analysis Techniques and Methods

Reading and Appreciation of Classic Quantitative Research Literature

Quantitative Research Paper Writing in Social Science

Social Stratification and Mobility

Empirical Research Paper and Writing

Others:

2010- *Multilevel Modeling and Application* (Summer Course on Social Science Methods, Peking University).

2012 *Categorical Data Analysis* (Summer Course on Social Science Methods, Peking University).

2017- *Medical Management Data Analysis* (Summer Course on Medical Research Methods, China Pharmaceutical University).

2018 *Advanced Social Quantitative Analysis* (Summer Course on Social Science Methods, Huazhong University of Science and Technology).

2020- *Advanced Methodology of Quantitative Research* (MOOC, Program of Web-Delivery for Elaborate Courses), founded by Central University of Finance and Economics.

2020- *Social Statistics using Stata* (MOOC, Program of Web-Delivery for Elaborate Courses), founded by Central University of Finance and Economics.
